When storage is available and used for the storage of cots and mats that allows the cots, mats and any bedding to be stored without touching any other cots, mats or bedding, the bedding may be left on the cot or mat. When such storage is not available for the cots and mats, each child's bedding shall be kept separate from other children's bedding and stored in containers marked for individual use, such as, but not limited to, bins, cubbies, or bags. It was determined based on the consultant's observation that four mats are being stored inside of the infant and one-year-old classroom and are not covered. Additionally, five cots are being stored inside of the two-year-old classroom and are not covered. Additionally, twelve cots are being stored inside of the three and four-year-old classroom and are not covered.

POI (Plan of Improvement)

The Center will store cots and mats so children do not have access to them and they don't take up play space and will store them so each child's bedding is separate from the others.
