Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

Food Service

591-1-1-.15 Food Service & Nutrition**Not Met****Finding Associated with Complaint**

591-1-1-.15(8) requires that a written statement be on file from a medical authority when a child requires a modified diet for medical reasons and from the child's Parent(s) when a child requires a modified diet for religious reasons. All caregiver Personnel shall be informed of the diet restriction for the child and only food that complies with the prescribed dietary regimen but still meets the food and nutrition requirements shall be served to the child. It was determined that on March 13, 2019, a two-year-old child was served a food item containing peanuts, although peanuts were documented on the child's enrollment application as a restricted food due to the child being allergic. The child had an adverse reaction after being served peanut butter crackers for snack, including itching and breaking out in welts and hives. The investigation found that staff responsible for the child's care were uncertain about the child's dietary restrictions. The child received professional medical attention

POI (Plan of Improvement)

The Center will obtain the appropriate written statement and keep it on file, inform all caregiver Staff, and only serve the child food that complies, but still meets the nutrition requirements in these rules and will review and monitor.

Correction Deadline: 4/26/2019

Health and Hygiene

Finding Associated with Complaint

591-1-1-.20(1) requires Personnel to obtain specific written authorization from the child's physician or parent in order to dispense prescription or non-prescription medications, except for first aid. Such authorization will include when applicable, date; full name of the child; name of the medication; prescription number, if any; dosage; the dates to be given; the time of day to be dispensed; and signature of parent. It was determined that on March 13, 2019, a two-year-old child was dispensed a topical over-the-counter medication for which the parent had not provided specific written authorization. The child, who was suffering from an allergic reaction consisting of itching and hives, was provided Cortisone Cream by the center director after the Vaseline, for which the center had both written and verbal permission from the mother to apply, did not appear to ease the child's discomfort. The center did not have written authorization to dispense the Cortisone Cream and did not notify the parent of the intent to dispense this topical medication.

POI (Plan of Improvement)

The Center will train Staff to obtain and review parental authorizations to ensure the authorization contains complete information. The designated person(s) will monitor daily.

Correction Deadline: 6/3/2019

Policies and Procedures

Finding Associated with Complaint

591-1-1-.29(3) requires the Director or designated person-in-charge to report or cause to be reported to the Department within 24 hours or the next work day: any death of a child while in the care of the Center; any serious illness or injury requiring hospitalization or professional medical attention other than first aid of a child while in the care of the Center; any situation when a child in care becomes missing, such as, but not limited to, a child who is left on a vehicle, a child who leaves the building, playground, or property, or a child who is left behind on any trip; any fire; any structural disaster; and any emergency situation that requires temporarily relocating children. It was determined that on March 13, 2019, a two-year-old child received professional medical attention for an allergic reaction and the center failed to report the incident within the required 24 hour period.

POI (Plan of Improvement)

The Center will develop a procedure so everyone knows how and when to report these incidents to the Department and will follow-up to make sure they are reported as required.

Correction Deadline: 6/26/2019
