Advisement of Potential for Repeated Rule Violations during Pending Investigations

This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Reminder: All employees of child care programs must be fingerprinted before **January 1, 2017**. For instructions and to submit records check applications online, please visit www.decalkoala.com. You are encouraged not to wait and to complete the process as soon as possible.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

		Facility

Finding Associated with Complaint

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on an investigation that the center failed to provide a fence or approved barrier to children three-years-old and older while allowing them to ride bikes in the front parking lot area.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.
