Finding

591-1-1-.08(6) requires the Center to maintain records of a child's daily arrival and departure for the twelve (12) preceding months that the Parent or person(s) authorized by the Parent documents, in written or electronic format, each time the Parent or authorized person drops off and picks up the child. The documentation shall include at least the date, the child's name, the arrival and departure times, and the signature or initials of the Parent or authorized person at the time of arrival and departure. These records shall be made available to the Department in printed or written form upon request. It was determined based on the consultant's observation, child head count and review of the sign in and sign out sheet that four children were signed in and nine children were present.

POI (Plan of Improvement)

The Center will maintain arrival and departure records as required, will ensure the documentation includes all of the required information, and will provide the records to the Department when requested.

591-1-1-.26 Playgrounds(CR)**Not Met****Finding**

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on the consultant's observation that two lattice panels inside of the child play area and surrounding the outside air condition unit is broken. Additionally, two top guard rail boards and two bottom guard rail boards are weathered, broken and splintering. All are located inside of the child playground area and accessible to all children.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 10/31/2017

Finding

591-1-1-.26(6) requires that playground equipment provide an opportunity for the children to engage in a variety of experiences and shall be age-appropriate. For example, toddlers shall not be permitted to swing in swings designed for School-age Children. The outdoor equipment shall be free of lead-based paint, sharp corners and shall be regularly maintained in such a way as to be free of rust and splinters that could pose significant safety hazard to the children. All equipment shall be arranged so as not to obstruct supervision of children. It was determined based on the consultant's observation that one red and yellow Little Tikes Coupe Car is missing the gas cap leaving a hole the size of a quarter, causing a potential pinching hazard. Additionally a red, green and blue tricycle is missing two protective handle bar cap covers causing a potential pinching hazard.

POI (Plan of Improvement)

The Center will provide a variety of age-appropriate equipment that is arranged so as not to obstruct supervision of children. Staff will check the equipment daily to ensure that the equipment is free of hazards, rust and splinters.
