Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

Safety

591-1-1-.11 Discipline(CR)

Not Met

Finding Associated with Complaint

591-1-1-.11(2) requires that Personnel not: physically or sexually abuse a child or engage or permit others to engage in sexually overt conduct in the presence of any child enrolled in the Center; inflict corporal/physical punishment upon a child; shake, jerk, pinch or handle a child roughly; verbally abuse or humiliate a child which includes, but is not limited to, the use of threats, profanity or belittling remarks about a child or his family; isolate a child in a dark room, closet or unsupervised area; use mechanical or physical restraints or devices to discipline children; use medication to discipline or control children's behavior without written medical authorization issued by a licensed professional and given with the parent's written consent; restrict unreasonably a child from going to the bathroom; punish toileting accidents; force-feed a child or withhold feeding a child regularly scheduled meals and/or snacks; force or withhold naps; allow children to discipline or humiliate other children; or confine a child for disciplinary purposes to a swing, highchair, infant carrier, walker or jump seat. It was determined based on the Director's interview and statement, the staff member's interview and statement, a review of the video footage, and additional investigative findings that on July 23, 202, two school aged children got in a physical fight at the center. The fight occurred when nine school aged children were left unsupervised in Classroom C. Staff were unable to intervene to prevent the fight from occurring due to the children being unsupervised at the time of the fight.

POI (Plan of Improvement)

The Center will take immediate action to ensure the action/conduct has ceased; train/review appropriate child guidance techniques with center staff; and have a system in place to monitor and identify inappropriate actions.

Correction Deadline: 8/16/2021

Staffing and Supervision

Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on statements and interviews with the Director and staff that on May 23, 2021, six school aged children were left unsupervised in Classroom C for several minutes, when the staff member left the room to take a child to the bathroom located in the hallway of the center.

POI (Plan of Improvement)

The Director stated that a new supervision plan would be put in place that included every classroom having a Walkie Talkie for the staff members to ask for help with assisting with bathroom breaks. The Director is also working on hiring additional staff to help cover the classrooms. The Director will provide additional supervision training for all staff.
