Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Finding Associated with Complaint

591-1-1-.15(2)(c) requires age-appropriate solid foods (including cereal) not be given to infants or children less than one (1) year of age until recommended as developmentally appropriate by the child's primary care physician and indicated in writing by the Parent(s) and requires a child to be fed from individual spoons and individual containers or dishes as soon as the feeding plan indicates that a child is ready for solid foods. A child shall not be fed directly from the original baby food container if the contents are to be fed to the child at more than one (1) meal or to more than one (1) child. It was determined based on staff interviews and statements that on September 23, 2022, center staff failed to provide the proper drinking cup that was developmentally appropriate for a four-year-old child that could not drink from a regular cup, and was not given the appropriate sippy cup to drink from is substantiated. It was reported that the child did not consume any liquids, that day, as a result. Staff statements and interviews revealed that on September 23, 2022, when the four-year-old classroom went to lunch in the cafeteria the staff left a four-year-old child's sippy cup inside of their bag in the classroom. Staff statements revealed that a staff member assisted the four-year-old child with drinking from a regular cup during lunch. Staff statements also revealed that when the four-year-old child received snack inside of the classroom later that day, the staff continued to provide assistance with the four-year-old child using a regular cup and did not use the sippy cup that was developmentally appropriate for the child that was inside of the child's bag. Staff interviews further revealed that the staff did not give the child the sippy cup because they are trying to help the child use a regular cup and that the child did obtain fluids that day.

POI (Plan of Improvement)

The Center will ensure that age-appropriate solid foods are given only as recommended by the child's physician and upon written instruction by the Parent(s). The Center will provide a sufficient number of spoons and dishes/containers and will train staff on proper feeding practices, review the procedures regularly and monitor to ensure procedures are followed.
