Inspection Type: Investigation	Inspection Information	Inspection No: 219780
Date Initiated: 04/07/2017 3:15 PM	Date Concluded: 04/11/2017 2:37 PM	
	No. of Children Present: 54	

Inspection Report	
Director Requirements	Not In Compliance
265 - Health, Safety, Comfort	Not In Compliance
922 KAR 2:110. Section 4. Director Requirements and Responsibilities.	
(1) Effective with the adoption of this administrative regulation, a director shall:	
(I) Provide for the health, safety, and comfort of each child;	
Findings:	
Based on review of documentation and interview, this regulatory requirement was not met. An interview with staff during the investigation revealed that in July 2016 an infant was dropped two (2) times within a week by the same staff person. The staff person informed the child's parent of the first incident verbally when the parent arrived to pick up the child because the child had a bump on her forehead. The child's parent stated during interview that she was told that the child slipped out of the staff person's lap when the staff person went to stand up from a sitting position. The child's head hit the floor as a result. A written statement that was obtained during the investigation revealed that the second incident occurred two (2) days later (7/15/16). The written statement contained the following information, "The staff person working the infant classroom told me that one of the older children in the infant room had hit a child in the face with a toy, she said it left a red mark. When the staff person left to go on her lunch break, another staff person informed me that she heard a thump in the infant room and said she thought that the infant staff person dropped a baby. The director asked me to come to her office and showed me on the security camera that the infant staff person dropped the same child that was dropped on 7/13/17". The written statement explained the incident with the following statement, "The infant staff person was trying to separate two babies that were on the floor playing while she was holding the child. She dropped the child to the floor from her knee height". The child's parent was not informed of the second incident and the staff person working the infant classroom was switched to the toddler classroom as a result of the incident.
