<p>922 KAR 2:090. Section 6. License Issuance. (9) A child-care center shall allow the cabinet or its designee, another agency with regulatory authority, and a parent of an enrolled child unannounced access to the child-care center during the hours of operation.</p> <p>Findings: General: Based on observation, at approximately 1:30pm, the surveyor and two additional cabinet representatives went to the front door of the facility and rang the doorbell. After waiting approximately 2 minutes, the surveyor knocked on the door and also rang the doorbell for a second time. The surveyor could see into the building and saw a child standing in the doorway of a nearby classroom. There was a teacher standing to the side of the classroom door. At 1:36pm, the surveyor called the facility and could hear the phone ringing from outside but no one answered the phone. At this point, one of the other cabinet representatives called the cell phone number of the facility's contact person and explained that no one would come to the door or answer the phone. The staff person stated that he would call the facility and get someone to come to the door. After waiting approximately ten (10) minutes, a staff person came and unlocked the front door. This person directed the surveyor and the DCBS staff to wait by the front door until the staff person in charge arrived. The surveyor clarified that a walk through of the facility would be conducted at that time. It is important to note that a staff person was observed in the kitchen area.</p>
