922 KAR 2:110. Section 4. Director Requirements and Responsibilities. (1) Effective with the adoption of this administrative regulation, a director shall: (I) Provide for the health, safety, and comfort of each child;	
Findings: General: Based on observation, the surveyor found that the health, safety, and comfort of a child was compromised when a child was inappropriately grabbed by staff (DOH: 5/2/16). As a result of the incident, the child sustained scratches to his neck area from the staff's fingernails. Video footage from inside the classroom on 3/14/17 reveals the child running around the room after taking a pair of sunglasses from the table. The staff person (DOH: 5/2/16) is observed running after the child for a brief period before grabbing the child. The child immediately started holding his neck and continued to either hold his neck or collar of his shirt for the next few minutes. After grabbing the child, the staff person led him by the hand to the table and he remained seated for approximately two (2) minutes. During the time that he was seated at the table, he was observed to pull the collar of his shirt up to his chin and sometimes up around his eyes while looking at the staff person. He was observed to periodically wipe his eyes with his collar as if he were crying.
