580 - Floors, Walls, Ceilings	Not In Compliance
922 KAR 2:120. Section 4. Premises Requirements.	
(9) Floors, walls, and ceilings shall be smooth, in good repair, and constructed to be easily cleaned.	
Findings:	
General: Based on observation, it was determined this regulatory requirement was not met.	
1. The classroom closest to the main entrance had several ceiling tiles that were in need of repair. The tiles above the shelf, near the thermometer on the right side of the building, were loose and the metal framework was observed to be loosely hanging. The ceiling tile above the shelf on the left side of the same wall was bowed outward and not fitting properly against the ceiling.	
2. In the second classroom, near the door in the back of the room, the ceiling tiles were dusty and cobweb like dust matter could be seen hanging from the ceiling around the area.
