If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

290-2-3-.13(2)(a) requires that outdoor play areas be kept clean and free of hazards such as exposed sharp corners of concrete or equipment, rust and splinters on equipment, broken glass, open drainage ditches, holes and stagnant water. It was determined based on consultant's observation that there were exposed sharp edges of concrete at the bottom of the staircase coming from the patio to the playground. Additionally, it was determined that there was a hole in the ground in the left back corner with exposed sharp concrete edges. It was also determined that there were exposed tree roots that posed a potential tripping hazard. Additionally, it was determined that the gaps between the railing poles and underneath the railing on the patio had gaps that measured at approximately four inches.

**POI (Plan of Improvement)**

The provider will install a four feet high chain link fence in front of the climbing equipment with a gate and the children will be coming from the patio to the enclosed area to play. The gaps between and under the railing will be covered with mesh material, and the exposed concrete at the bottom of the stairs will be covered with mulch or dirt.

**Correction Deadline: 1/28/2019****Recited on 1/28/2019****Finding**

290-2-3-.13(2)(d) requires that outside play areas be protected from traffic or other hazards by fencing or other barriers at least four feet in height and approved by the Department. Fencing material shall not present a hazard to children. A fence shall be provided around swimming pools to make them inaccessible when not in use. It was determined based on consultant's observation and measurements that there was a four inch gap on the gate located on the far back end of the playground fence. Additionally, it was determined that there were protruding bolts on the same gate that were accessible to the children.

**POI (Plan of Improvement)**

The provider will close the gap by tightening the fence and will cut down the bolts to the second thread or cap them.

**Correction Deadline: 1/28/2019****Recited on 1/28/2019**
