If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Group Day Care Homes, 290-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

**Not Met**

**Finding Associated with Complaint**

591-1-1-.18(4) makes the following dishwashing requirements for non-disposable dishes, glasses and silverware: 1) cleaned by pre-rinsing, or scraping, 2) washed, 3) sanitized and 4) air-dried. Center must either have a three compartment sink, or a dishwasher and a two-compartment sink. Dishes are to be sanitized by maintaining a temperature of 150 degrees in the rinse water or a sanitizing chemical must be used. It was determined on this date through the consultant's observation that a black mold like substance was underneath the lids on several sippy cups in rooms A and B. Several small black spots were observed on two pink cups underneath the two pink lids and an orange cup underneath the orange lid in the infant room. Several small black spots were observed underneath the lids of a blue cup with a blue lid, a green cup with a turquoise lid and an orange cup with a yellow lid. Several more widespread large black spots were observed on a blue cup with a blue lid in room B

**POI (Plan of Improvement)**

To ensure proper dishwashing, the center will remove the lids and wash the cups or replace the cups.
