During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Group Day Care Homes, 290-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Health and Hygiene

Finding Associated with Complaint

591-1-1-.20(1) requires Personnel to obtain specific written authorization from the child's physician or parent in order to dispense prescription or non-prescription medications, except for first aid. Such authorization will include when applicable, date; full name of the child; name of the medication; prescription number, if any; dosage; the dates to be given; the time of day to be dispensed; and signature of parent. It was determined during an investigation, that center staff failed to obtain specific written authorization from the parent when a verbal agreement to store emergency medication was made. On March 27, 2019, a four-year-old child suffered a seizure that required emergency medical treatment. The center had a policy prohibiting the administration of medication, however, center staff verbally agreed to provide the medication to EMT's when needed. When the EMT arrived at the center, the medication could not be located or administered. The child was treated and taken to the doctor for additional treatment, but suffered a second seizure.

Finding Associated with Complaint

591-1-1-.20(4) requires the Center to keep medication in a cabinet or container that is locked or otherwise not accessible to the children and to be stored separate from cleaning chemicals, supplies or poisons. Medications requiring refrigeration shall be placed in a leak-proof container in a refrigerator that is not accessible to the children. It was determined during an investigation that emergency medication was not kept in the storage container with other medications, but rather in a cabinet next to other office supplies. On March 27, 2019, a four-year-old child suffered a seizure that required emergency medical treatment, but when the paramedics arrived, the medication could not be located and the child had to be treated without it.
