If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. Finding

591-1-1-.19(2) allows a Center to designate two specific one hour periods each day when only 25 square feet of space per child is provided for children three years of age and older in their assigned rooms or areas. This provision is intended to account for increased attendance for before-school and after-school care. It was determined based on observation that the center cared for 25 children in a space that is licensed for 18. The room has 25 sq Ft approval between the hours of 3:00 p.m. and 5:00 p.m. only.

POI (Plan of Improvement)

The Center will limit the children to three years and older and will limit the time to the designated two hours in the approved rooms. The Center will submit a new request for approval before changing the approved hours or rooms.

591-1-1-.25 Physical Plant - Safe Environment(CR)**Not Met****Finding**

591-1-1-.25(13) requires that potentially hazardous equipment, materials and supplies be stored in a locked area inaccessible to children. It was determined based on observation that Aquaphor and diaper rash creme were in a cubby accessible to the toddlers in the front right classroom. The cribs were positioned underneath the wall cubbies on the right side of the classroom with the hazards present.

POI (Plan of Improvement)

The Center staff removed the items and placed them in a locked cabinet.

Correction Deadline: 7/18/2017

591-1-1-.26 Playgrounds(CR)**Not Met****Finding**

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that a board was missing from the front left side of the outdoor area. A four inch gap was observed underneath the gate on the right back playground.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 7/18/2017**Finding**

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observation that an active ant pile was on the back right side of the playground.

POI (Plan of Improvement)

The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards.

Finding

591-1-1-.36(7)(b) requires that an emergency medical information record be maintained in the vehicle for each child being transported. The emergency medical information record for each child shall include a listing of the child's full name, date of birth, allergies, special medical needs and conditions, current prescribed medications that the child is required to take on a daily basis for a chronic condition, the name and telephone number of the child's doctor, the local medical facility that the Center uses in the area where the Center is located and the telephone numbers where the Parents can be reached. It was determined based on review of records that the center was missing seven of sixteen forms for children transported on a field trip. The forms were not maintained on the vehicle.

POI (Plan of Improvement)

The Center will obtain a complete emergency medical information record for each child that is transported and maintain a copy on the vehicle.

It was determined based on observation that a child was in the the back left classroom briefly unattended looking for art supplies. The child was observed to return to her classroom.

POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.
