Finding

290-2-3-.07(7) requires that the Provider, Employees and Provisional Employees with direct care responsibilities shall complete health and safety orientation training within the first 90 days of employment. The state-approved training hours obtained will count toward required first year training hours. The training must address the following health and safety topics: prevention and control of infectious diseases (including immunizations); prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards for parental consent; prevention of and response to emergencies due to food and allergic reactions; building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome, abusive head trauma and child maltreatment; emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event (such as violence at a child care facility); handling and storage of hazardous materials and the appropriate disposal of bio contaminants; precautions in transporting children; recognition and reporting of child abuse and neglect; and child development. It was determined based on a review of records that there was no valid evidence of health and safety orientation training as required by the Department.

POI (Plan of Improvement)

The Provider will complete the required training and will ensure any Employees or Provisional Employees complete the training. The Provider will develop a plan to ensure that any new Staff hired complete the training as required.
