Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Incident Investigation Closure:

Staffing and Supervision

591-1-1-.32 Supervision(CR)

Not Met

Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times and that the persons supervising in the child care area be alert, able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the chaperones and Students-in-Training, and provide timely attention to the children's actions and needs. It was determined that on August 26, 2019, a two-year-old child pulled a wooden shelf on top of the child which resulted in an injury to the child's right cheek. At the time of the incident, one staff member was sitting on the floor, facing the classroom while picking up toys off the floor. The additional staff member was talking to a child about their behavior. Meanwhile, a two-year-old child reached to pull a toy from the top of a wooden dramatic play shelf, at that time the entire shelf fell over on top of the child. When the incident occurred, one of the two staff members was engaged with some of the children in the classroom, however staff were not aware the child reached on top of the shelf, therefore, could not prevent the incident. The child required professional medical attention. Additionally, at the time of the incident, a two-year-old child was observed to climb into a dramatic play sink. In the video footage provided and reviewed, staff members did not immediately respond to remove the child from the toy sink.

POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.
