- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

Finding

591-1-1-.09(1)(c) requires the Center to ensure that every Employee has a valid and current satisfactory Comprehensive Records Check Determination on file prior to being present at the Center while any child is present for care or before an individual age 17 or older resides in the Center. The Comprehensive Records Check Determination must have a Records Check Clearance Date that is no older than the preceding 12 months of the hire date; provided, however, if the Employee has had a lapse of employment from the child care industry that lasted for 180 days (6 months) or longer, a new satisfactory Comprehensive Records Check Determination is required. It was determined, based on review of records, that Staff #2 observed present and caring for children, had a satisfactory criminal records check determination letter on file which expired on August 14, 2019, when a current satisfactory comprehensive records check determination letter is required. Evidence was observed, provided by the center, of Staff #2 completing the fingerprinting process and of submitting an application to the Department, as required. A one-day letter and affidavit verifying completion of background check video units was left with the director on this date.
