Plan of Improvement: Developed This Date 08/20/2019

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.al.ga.gov/CCS/RulesAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

Meals and snacks shall be varied daily, and additional servings of nutritious food shall be offered to children over and above the required daily minimum, if not contraindicated by special diets. Health and Hygiene

591-1-1-.10 Diapering Areas & Practices(CR)**Not Met****Comment**

Proper diapering procedures observed.

Finding

591-1-1-.10(1) requires Centers first licensed after March 1, 1991, and Centers that are renovated after March 1, 1991, to provide ventilation in the diapering areas with functioning exhaust fans and a duct system or by the required amount of window space provided by operable windows when open. It was determined based on observation that the ventilation fan in room C was not in working order. The windows did not have screens.

POI (Plan of Improvement)

The responsible person(s) at the center will ensure that the exhaust fans and duct systems are functioning or that the required amount of operable window space is provided in each diapering area.

Correction Deadline: 8/20/2019

Finding

591-1-1-.10(4) requires that if diapers are changed on a diaper changing surface, the surface shall be smooth, nonporous, and equipped with a guard or rails to prevent falls. Between each diaper change, the diaper changing surface shall be cleaned with a disinfectant and dried with a single-use disposable towel. It was determined based on observation that the diaper changing mats in rooms A and D contained a pattern and were therefore porous.

POI (Plan of Improvement)

The Center will ensure there is a smooth, nonporous changing surface that has a guard or rails for safety in each classroom that houses children wearing diapers. Center Staff will be trained and have adequate supplies to properly clean the diaper changing surface between each diaper change.

Finding

591-1-1-.17(8) requires staff to wash their hands with liquid soap and warm running water upon arrival for the day, when moving from one child care group to another, upon re-entering the child care area after outside play, before and after diapering each child, dispensing medication, applying topical medications, handling and preparing food, eating, drinking, preparing bottles, feeding each child, assisting children with eating and drinking, after toileting or assisting children with toileting, using tobacco products, handling garbage and organic waste, touching animals or pets, handling bodily fluids and after contamination by any means. It was determined based on observation that a staff person did not wash her hands immediately after diapering. The staff person was observed to have touched a plate of food prior to washing her hands.

POI (Plan of Improvement)

The Center will ensure liquid soap and warm running water are available for handwashing, train Staff on the handwashing requirements, review the requirements with Staff periodically, and monitor handwashing.
