Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

It was determined base do observation that resilient surface material in the fall zones of the monkey bars and slide measured between three inches and four inches when six inches is required. In addition several fall zones areas in the front of the swing measured three inches when six inches is required.

POI (Plan of Improvement)

The provider will rake the sand and add more sand if needed to ensure that there is an adequate resilient surface under and in the fall zone of climbing and swinging equipment. The Home will inspect equipment and resilient surfacing material regularly and repair or replenish as needed.
