290-2-3-.19 Infant-Sleeping Safety Requirements(CR)

Not Met

Finding

290-2-3-.19(2) requires that a Family Child Care Learning Home shall provide a safe sleep environment in accordance with American Academy of Pediatrics (AAP), Consumer Product Safety Commission (CPSC) and American Society for Testing and Materials (ASTM) recommendations as listed in these rules for all infants and one-year-old children when placed for sleep in a safety approved crib or in any other type of equipment approved for infant sleep. Staff shall place an infant to sleep on the infant's back unless the Parent has provided a physician's written statement authorizing another sleep position for that particular infant that includes how the infant shall be placed to sleep and a time frame that the instructions are to be followed. When an infant can easily turn over from back to front and back again, Staff shall continue to put the infant to sleep initially on the infant's back, but allow the infant to roll over into his or her preferred positions and not re-position the infant. Sleepers, sleep sacks and wearable blankets that fit according to the commercial manufacturer's guidelines and will not slide up around the infant's face may be used when necessary for the comfort of the sleeping infant, however swaddling shall not be used unless the Home has been provided a physician's written statement authorizing its use for a particular infant that includes instructions and a time frame for swaddling the infant. Staff shall not place objects or allow objects to be placed in or on the crib with an infant such as but not limited to toys, pillows, quilts, comforters, bumper pads, sheepskins, stuffed toys, or other soft items and shall not attach objects or allow objects to be attached to a crib with a sleeping infant such as but not limited to crib gyms, toys, mirrors and mobiles. It was determined based on an observation that two infants were observed to be sleeping and covered with a blanket. One infant was also wearing a bib while sleeping. Infants were observed to be sleeping on their stomachs. Both infants were under the age of three months.

POI (Plan of Improvement)

The Home Provider will ensure that safe sleep requirements for infants are followed as required.

Correction Deadline: 3/7/2018

Finding

290-2-3-.19(2)(c) requires that infants shall only sleep in a safety approved crib or other equipment approved for infant sleep as described in 290-2-3-.19(1)(a) and shall not sleep in any other equipment, such as, but not limited to, a car safety seat, bouncy seat, highchair, or swing. Infants who arrive at the facility asleep or fall asleep in such equipment or on the floor shall be transferred to a safety approved crib or other equipment approved for infant sleep. It was determined based on an observation that an infant was observed to be sleeping on the diaper changing station attached to a pack-n-play.

POI (Plan of Improvement)

The Home Provider will move infants who fall asleep in equipment other than a safety-approved crib such as a car safety seat, highchair or swing, or on the floor, to a safety-approved crib.

Correction Deadline: 3/7/2018

.08(11) - Correction of previous citation in that consultant observed all enrolled children to have parent authorization of no liability insurance on file.

Finding

290-2-3-.08(2) requires the Home to maintain a file for each Child that includes evidence of age-appropriate immunizations or a signed affidavit against such immunizations; enrollment in the Home may not continue for more than 30 days without such evidence. It was determined based on review of records that five of seven enrolled children were without an updated immunization record on file.

POI (Plan of Improvement)

The Home Provider will ensure that an immunization record/signed affidavit is on file for each enrolled Child.
