Finding

290-2-3-.07(15) requires the Home to ensure that the total number of Children not Related to the Provider in the Family Child Care Learning Home, for pay or not for pay, cannot exceed six Children, except that a Provider may care for two additional children who are three years of age or older for two designated one hour periods daily upon approval approved by the Department. It was determined based on observation that eight unrelated children were present on this date.

POI (Plan of Improvement)

The Home will reduce the number of unrelated children, both for pay and not for pay, so that the total number of unrelated children in care does not exceed the number of children as specified in these rules. The provider will speak with the parents about alternative child care. The provider stated that one child is only present two days a week. The provider stated that two children will be leaving in May when school gets out.

Correction Deadline: 1/17/2020

Comment

The Provider was observed directly supervising and being attentive to the needs of the children.
