Plan of Improvement: Developed This Date

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, http://www.decal.ga.gov/CCS/RulesAndRegulations.aspx , for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. Please see GBI's website located at http://gbi.georgia.gov to access the Georgia Sex Offender Registry.

2) On the home page scroll down to the Inspection Reports and select 'Refute Citation' for the visit report in dispute
3) Select the specific rule number(s) that you are refuting, add the reason for disagreement regarding the rule citation, and upload supporting documentation
4) Submit the refutation in DECAL KOALA to Child Care Services (CCS) within 10 business days of the completion date.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

Important Quality Rated/CAPS Update:

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Comment
Please be mindful to keep items that pose a hazard inaccessible to children.

Discussed with the director about adding light above the changing table in Classroom A.

591-1-1-.26 Playgrounds(CR) **Not Met**

Comment
Trees located on the site or that encroach onto the site from adjacent properties may have structural issues that present an elevated level of risk. Consider having these trees inspected by a certified arborist to determine their structural integrity and associated levels of risk.

Finding
591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined base on observation the following:

Playground C- Back School- Age Playground
*The fence measured three (3) feet and eight (8) inches in the right back corner and not the four (4) feet that is required by the department.
*The fencing at the back left was not attached to the two posts.
Playground D-Front Left-Preschool Playground
*The fence at the front beside the double gates, measured three (3) feet and ten (10) inches, and the fence in the back left corner measured three (3) feet and nine(9) inches and not the four (4) feet that is required by the department.
* A gap measuring four inches between the front gate and post closest to the building.
Playground E-back left-School Age
*The fence at the front right corner measured three(3) feet and nine (9) inches and not four (4) feet that is required by the department.

Bolts measuring over two (2) thread lengths on the gate between Playground B and E and on the double gates on Playground C.

POI (Plan of Improvement)
The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 9/7/2025 **Prior Visits: 04/27/2023**

Finding
591-1-1-.26(6) requires that playground equipment provide an opportunity for the children to engage in a variety of experiences and shall be age-appropriate. For example, toddlers shall not be permitted to swing in swings designed for School-age Children. The outdoor equipment shall be free of lead-based paint, sharp corners and shall be regularly maintained in such a way as to be free of rust and splinters that could pose significant safety hazard to the children. All equipment shall be arranged so as not to obstruct supervision of children. It was determined based on observation the following playground equipment was hazardous:
Middle Playground
*Chipping paint on the red car

Back Right Playground
*Four swings sets had rusted "S" hooks at the bottom near the seat.

Front Left Playground-Prechool
*The monkey bars were observed to had rusted.

POI (Plan of Improvement)
The Center will provide a variety of age-appropriate equipment that is arranged so as not to obstruct supervision of children. Staff will check the equipment daily to ensure that the equipment is free of hazards, rust and splinters. All repairs will be corrected and pictures will be submitted to the consultant by COB: August 14, 2025.

Correction Deadline: 8/14/2025 **Prior Visits: 09/03/2024**

Recited on 8/7/2025

Finding
591-1-1-.26(8) requires climbing and swinging equipment to have a resilient surface beneath the equipment and the fall zone from such equipment must be adequately maintained by the Center to assure continuing resiliency. It was determined based on observation the following:

*On Playground B, the Preschool Playground, the resilient surface measured less than one inch around the red and blue climbing and sliding equipment.
*On Playground C, the School-Age Playground, the resilient surface measured less than one to two inches around the yellow jungle equipment and swing set.
*On Playground D, the Preschool Playground, the resilient surface measured less than one inch around the grey wooden jungle gym with monkey bars and slide and the swing set.

POI (Plan of Improvement)
The Center will add additional resilient surfacing to the fall zones where needed and check daily, adding resilient surfacing as needed to maintain adequate resiliency.

Correction Deadline: 8/17/2025 **Prior Visits: 09/03/2024**

Finding
591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observation, the following hazards:

* Playground C-Back Playground-School Age- exposed tree roots behind the shelter.
* Playground E-Left Back-School Age-exposed tree roots around the large tree and sticks lying around the playground.

* Playground A-Toddler Playground two active ant beds. One located in and around the plastic tree house and one located near the plastic tree house.

*Playground E-the PVC piping near the back swings was observed unattached

POI (Plan of Improvement)
The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards. Provider will email photographs to the consultant by COB on August 9, 2025.
