Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the rear fence on Playground A measured three feet and two inches in some areas where four feet is required. In addition, it was determined that the right side fence on Playground B measured three feet and three inches in some areas where four feet is required.

POI (Plan of Improvement)

The Center will repair the fence and ensure that the fence measures at least four feet in height in all locations. The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards.
