This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Policies and Procedures

591-1-1-.29 Required Reporting

Not Met

Finding Associated with Complaint

591-1-1-.29(3) requires the Director or designated person-in-charge to report or cause to be reported to the Department within twenty-four (24) hours or the next work day: any death of a child while in the care of the Center; any serious illness or injury requiring hospitalization or professional medical attention other than first aid of a child while in the care of the Center; any situation when a child in care becomes missing, such as, but not limited to, a child who is left on a vehicle, a child who leaves the building, playground, or property, or a child who is left behind on any trip; any fire; any structural disaster; any emergency situation that requires temporarily relocating children; and any time the program's operating status changes (i.e., open to closed or temporarily closed and temporarily closed to open). It was determined based on an investigation that on October 27, 2023, the center failed to report to the Department within 24 hours that a five-year-old child was left alone on the childcare vehicle for approximately seven minutes.

Correction Deadline: 12/5/2024

Safety

591-1-1-.36 Transportation(CR)

Not Met

Finding Associated with Complaint

591-1-1-.36(10) requires that a child never be left unattended in a vehicle. It was determined based on an investigation that on October 27, 2023, center staff failed to conduct vehicle checks and incorrectly completed the transport log, resulting in a five-year-old child being left unsupervised on the vehicle for approximately seven minutes. Professional medical attention was not required.

Correction Deadline: 12/5/2024

Finding Associated with Complaint

591-1-1-.36(7)(c)2. requires that the driver or other designated person shall immediately document in writing, with a check or other mark/symbol to account for each child listed on the passenger transportation checklist each time a child enters and exits the vehicle. The driver or other designated staff person shall document in writing with a different mark/symbol to account for each child listed on the passenger transportation checklist who was not present on the vehicle for any reason. An explanation shall be documented in writing whenever a child is transported to a field trip site but is not present on the return trip to the Center. It was determined based on an investigation that on October 27, 2023, center staff failed to accurately document children exiting the vehicle on the transportation log as required. The transportation log had been completed, but a five-year-old child that had fallen asleep was left on the vehicle.

Correction Deadline: 12/5/2024

Finding Associated with Complaint

591-1-1-.36(7)(d)1. requires that the first check be conducted immediately upon unloading the last child at any location including, but not limited to, a field trip destination, arrival at the Center, and the last stop during transportation to home or school. The responsible person on the vehicle shall physically walk through the entire vehicle; visually inspect all seat surfaces, under all seats and in all compartments or recesses in the vehicle's interior; sign the passenger transportation checklist (s), indicating all of the children have exited the vehicle; and give the passenger transportation checklist(s) to the second designated Staff person. It was determined based on an investigation that on October 27, 2023, center staff incorrectly completed the transportation log and did not conduct a first check of the vehicle as required after returning to the center when a five year old child in care was left on the vehicle for at approximately seven minutes.

Correction Deadline: 12/5/2024

Finding Associated with Complaint

591-1-1-.36(7)(d)2. requires that the second designated Staff person conduct a check of the vehicle immediately upon the completion of the first check of the vehicle. The responsible person shall physically walk through the entire vehicle; visually inspect all seat surfaces, under all seats and in all compartments or recesses in the vehicle's interior; and sign the passenger transportation checklist(s), indicating all of the children have exited the vehicle. There shall be continuous watchful oversight of the vehicle between the first check and second check. It was determined based on an investigation that on October 27, 2023, a second check of the vehicle was not conducted immediately following the first check as required upon the vehicles arrival to the center. As a result a five-year-old child was left on the vehicle. The transportation documentation was completed to indicate that a second check was completed but the second check had not been conducted.

Staffing and Supervision

Not Met

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on an investigation that on October 27, 2023, a five-year-old child was left alone on a vehicle for approximately seven minutes before exiting the vehicle and walking into the center alone without staff supervision.
