Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the entire fence around both playground's A and B measured from 3 feet 10 inches to 3 feet 11 inches in height, not meeting the 4 feet height. Playground A also had a hole in the back fence area - left side measuring at 3 feet 2 inches in height and about 7 inches wide. The fencing barrier around the A/C unit on playground B measured at 3 feet 6 inches.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 3/20/2026

Finding

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observation playground B had exposed sharp edges from wood surrounding the playground equipment on the playground.

POI (Plan of Improvement)

The Center will ensure that both playgrounds are free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete at all times. Spray paint all stomps so that they are visible to the eye, preventing any tripping hazards.

Correction Deadline: 3/20/2026
