Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

Activities and Equipment

591-1-1-.12 Equipment & Toys(CR)

Not Met

Finding Associated with Complaint

591-1-1-.12(4) requires that equipment and furniture is secured if it is of a weight or mass that could cause injury from tipping, falling, or being pulled or pushed over. It was determined based on the observation that the one-year-old classroom did not have the kitchen set secured to avoid injury from tipping, falling, or being pulled or pushed over.

POI (Plan of Improvement)

The Center will ensure that the identified equipment or furniture and any other such existing or future items are secured adequately and will have a system for checking these for stability.

Correction Deadline: 1/12/2024

Health and Hygiene

591-1-1-.17 Hygiene(CR)

Not Met

Finding Associated with Complaint

591-1-1-.17(3) requires that children's combs, toothbrushes and cloth towels be kept clean. It was determined based on staff interviews and statements that the allegation reported during the week of December 4, 2023, at the time of departure, a one-year-old child and a two-year-old child were observed not to be wearing shoes or socks, and staff could not locate the missing shoes or socks is substantiated. Staff statements stated that they try to keep the socks and shoes on the children's feet, and when the socks and shoes come off, they put the socks and shoes in their labeled cubby. Staff statements revealed that all jackets are labeled and put in the bathroom hung up, and the blankets are labeled and put in their cubbies where it is labeled. During the visit, the consultant observed the socks and shoes off of the children.

POI (Plan of Improvement)

The Center will develop a plan to ensure these items are kept clean, that includes training staff and monitoring for compliance.

Correction Deadline: 1/12/2024

Staffing and Supervision

Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on staff statements that the allegation on the week of November 27, 2023, there was a lack of supervision and watchful oversight when a one-year-old child was bitten four times during the week by another child in the Wobblers classroom, which housed the younger one-year-old children is substantiated. Staff statement revealed that they had a child in their classroom who was biting frequently. Staff statement further revealed that if they are changing a child, their focus is on the child, and when the staff turns around, the child has already bitten someone. The staff statement revealed that the biter was moved to another classroom.

POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.
