Plan of Improvement: Developed This Date 09/08/2023

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.state.ga.us/CCS/RuleAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. Please see GBI's website located at <http://gbi.georgia.gov> to access the Georgia Sex Offender Registry.

- 2) On the home page scroll down to the Inspection Reports and select 'Refute Citation' for the visit report in dispute
- 3) Select the specific rule number(s) that you are refuting, add the reason for disagreement regarding the rule citation, and upload supporting documentation
- 4) Submit the refutation in DECAL KOALA to Child Care Services (CCS) within 10 business days of the completion date.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

Important Quality Rated/CAPS Update:

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Contact the Quality Rated help desk at 855-800-7747 or qualityrated@dec.state.ga.us for more information. Free technical assistance is available!

591-1-1-.08(1) requires the Center Staff to maintain a file for each child while such child is in care and for one year after that child is no longer enrolled. In order for the file to be complete, the file shall contain the following: child's name, birth date, sex, address, living arrangement, name of school if applicable; names of both Parents, home and work addresses, and home and work telephone numbers; name(s) and addresses of the person(s) to whom the child may be released including address, telephone numbers, relationship to child and to Parent(s), and other identifying information; name(s) and telephone number(s) of person(s) to contact in emergencies when the Parent cannot be reached; name and telephone number of the child's primary source of health care; and a statement regarding known allergies, physical problems, mental health disorders, intellectual disabilities or developmental disabilities which limit the child's participation in the program. It was determined based on a review of records that four out of five records reviewed were missing information as to whether the child had any known allergies, disabilities, health conditions, or are taking medications. Additionally, one out of five records reviewing was missing the father's name and contact information, and both parents employment information.

POI (Plan of Improvement)

Center staff will develop a plan that includes how to obtain all required information for currently enrolled children and how to ensure this is done for future enrollees as well. The plan will also include how and where to maintain files for the required amount of time. The plan will be implemented and followed.

591-1-1-.07(5) requires Center Staff to not permit children to wear around their necks or attach to their clothing pacifiers or other hazardous items. It was determined based on observation that in classroom B, a one-year-old child was observed with a necklace around their neck and another one-year-old child was observed with a pacifier clip attached to their clothing that posed a potential hazard. Additionally, in classroom C, a three-year-old child was observed with a necklace around their neck.

591-1-1-.10 Diapering Areas & Practices(CR)**Not Met****Finding**

591-1-1-.10(4) requires that if diapers are changed on a diaper changing surface, the surface shall be smooth, nonporous, and equipped with a guard or rails to prevent falls. Between each diaper change, the diaper changing surface shall be cleaned with a disinfectant and dried with a single-use disposable towel. It was determined based on observation that the changing pad in classroom B had a hole in the changing surface that was approximately one inch long that prevented the surface from being nonporous. Additionally, the bottom portion of the changing surface was not kept clean due to a large amount of debris under the changing pad that included dirt and food crumbs.

POI (Plan of Improvement)

The Center will ensure that the changing pad is smooth and nonporous. Additionally, center staff will ensure that the diaper changing surface is sanitized between each diaper change.

Correction Deadline: 9/8/2023

It was determined based on observation that a staff member in classroom A was observed to clean two infant's noses and did not wash her hands between each child or after the second child as required.

POI (Plan of Improvement)

The Center will ensure liquid soap and warm running water are available for handwashing, train Staff on the handwashing requirements, review the requirements with Staff periodically, and monitor handwashing.

Finding

591-1-1-.32(1) requires the Center to maintain the required Staff:child ratios as follows: under 1 year or under 18 months if not walking = 1:6; 1 year and walking = 1:8; 2 years = 1:10; 3 years = 1:15; 4 years = 1:18; 5 years = 1:20; and 6 years and older = 1:25. A Center must establish groupings of children for care with maximum group sizes as follows: under 1 year = 12; under 18 months/not walking = 12; 1 year and walking = 16; 2 years = 20; 3 years = 30; 4 years = 36; 5 years = 40; and 6 years and older = 50. It was determined based on observation that classroom C had one staff member with 16 three-year-old children present for a ratio of 1:16 when two staff members were required for a ratio of 2:16. Additionally, when the consultant walked into classroom E, one staff member was present with 20 four-year-old children for a ratio of 1:20 when a ratio of 2:20 is required. Furthermore, during outside time, the consultant observed one staff member with 21 four-year-old children for a ratio of 1:21 when a ratio of 2:20 is required.

POI (Plan of Improvement)
