Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. POI (Plan of Improvement)

The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use. All chipped paint will be removed and repainted. Fence ties will be used to attach fencing to the top gate pole.

Correction Deadline: 10/7/2021

Finding

591-1-1-.26(6) requires that playground equipment provide an opportunity for the children to engage in a variety of experiences and shall be age-appropriate. For example, toddlers shall not be permitted to swing in swings designed for School-age Children. The outdoor equipment shall be free of lead-based paint, sharp corners and shall be regularly maintained in such a way as to be free of rust and splinters that could pose significant safety hazard to the children. All equipment shall be arranged so as not to obstruct supervision of children. It was determined based on observation the following hazards on the equipment accessible to the children in care:

The resilient material measured at a minimal of three inches.

POI (Plan of Improvement)

The Center will add additional resilient surfacing to the fall zones where needed and check daily, adding resilient surfacing as needed to maintain adequate resiliency.

Correction Deadline: 10/5/2021

Technical Assistance
