This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

591-1-1-.07 Children's Health

Finding Associated with Complaint

591-1-1-.07(2) requires Center Staff to immediately notify Parents and obtain specific instructions until the child can be picked up or returned to the group when professional medical attention is required, or when the child experiences symptoms of moderate discomfort such as elevated temperature, vomiting or diarrhea and to notify Parents by the end of the day when professional medical attention is not required, when the child experiences symptoms of less than moderate discomfort or when the child experiences an adverse reaction to prescribed medication which does not constitute moderate discomfort. It was determined based on investigation that a nine-month-old infant sustained a diaper rash that was getting worse throughout the day and required professional medical attention on December 2, 2022. The center staff failed to immediately notify the infant's parent as required by the Department.

POI (Plan of Improvement)

The Center will provide notification and obtain instructions as required and will train Staff to familiarize them with the notification requirements and the Center's procedures for following them.

Correction Deadline: 1/17/2023

Such authorization will include when applicable, date; full name of the child; name of the medication; prescription number, if any; dosage; the dates to be given; the time of day to be dispensed; and signature of parent. It was determined based on investigation that on December 2, 2022, staff persons administered diaper rash ointment to a nine-month-old infant's bottom, but failed to obtain written authorization from the child's parent.

POI (Plan of Improvement)

The Center will train Staff to obtain and review parental authorizations to ensure the authorization contains complete information. The designated person(s) will monitor daily.
