Comments

The purpose of this visit was to conduct a licensing study.

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.al.ga.gov/CCS/RulesAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. Please see GBI's website located at <http://gbi.georgia.gov> to access the Georgia Sex Offender Registry.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

Important Quality Rated/CAPS Update:

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Finding

591-1-1.25(12) requires heating and cooling equipment to be protected to prevent children from touching it. Fans, space heaters, etc. shall be positioned or installed so as to be inaccessible to the children. It was determined, based on observation in Room A-3R, that a black oscillating pedestal fan was sitting near the green table on the right side of the classroom accessible to the children in care. A white floor fan was also observed accessible to the children in Room B- 4R, sitting on top of a white mini refrigerator in the back left corner of the classroom.

Finding

591-1-1-.25(7) requires that doors to rooms not approved for child care, other than the kitchen doors, be latched or locked so children cannot wander into those areas. Except in School-age Centers, interior Center door locks shall permit Personnel to open the locked room from outside of the room in an emergency. It was determined based on observation that a door near Room C- 5R, was unlocked and open, leading to an unapproved downstairs area of the center.

POI (Plan of Improvement)

The Center will routinely check that doors to un approved rooms remain latched or locked and that Staff can open the locked rooms in an emergency.

591-1-1-.26 Playgrounds(CR)**Not Met****Comment**

Discussed maintenance of resilient surface. Please fluff and redistribute.

Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the fence measured 3 feet 10 inches in the back right corner of the playground and not 4 feet as required. Loose wiring, poking out from the fence ,was also observed on the front right side of the fence, near the entrance gate, posing a risk to children in care.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.
