A variety of equipment and toys were observed throughout the center on this date.

Finding

591-1-1-.12(2) requires that all equipment and furniture be free from hazardous conditions such as, but not limited to, sharp rough edges or toxic paint; and be kept clean. It was determined based on observation that in the Building I Room 4 there was a blue Little Tikes table that had an exposed screw in the middle which posed a potential hazard.

POI (Plan of Improvement)

The Center will ensure that equipment and furniture are used by the age-appropriate group of children.

Corrected on 3/3/2026

.25(13) - The previous citation was observed corrected on this date. Hazards were stored inaccessible to the children through out the Center, which includes Building I Room 5.

Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the fencing on the left side of Playground A and Playground B measured 3.5 feet when 4 feet was required. Additionally, there were 3 exposed bolts on the exit gate of Playground A that posed a potential puncture hazard.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.
