Advisement of Potential for Repeated Rule Violations during Pending Investigations

This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Please refer to the website, <http://www.dec.al.ga.gov/CCS/RulesAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Incident Investigation Closure:

Health and Hygiene

591-1-1-.07 Children's Health

Not Met

Finding Associated with Complaint

591-1-1-.07(1) requires Center Staff to not accept a child nor allow a child to remain at the Center if the child has the equivalent of a 101 degrees Fahrenheit or higher oral temperature and another contagious symptom, such as but not limited to, a rash, diarrhea or a sore throat. When a child shows symptoms of illness during the day, the child shall be moved to a quiet area away from other children where the child shall be supervised and provided the necessary attention until such time as the child leaves the Center or is able to return to the child's group. It was determined based on an investigation that on June 18, 2024, center staff did not thoroughly assess a three-year-old child for an arm injury after the child showed signs of moderate pain. While on the playground, the three-year-old child slipped, fell, and struck their arm on the metal bar of the red and tan playground equipment. Staff responded to the child, provided a topical menthol cream, and an ice pack. The child was taken to a medical facility by the parents and diagnosed with a fracture of the radial neck of the left arm. Professional medical attention was required.

POI (Plan of Improvement)

The Center director will make Center Staff and parents/guardians aware of this requirement and will not allow children with the listed symptoms to attend or remain in the Center while ill. Center Staff will identify a quiet area for ill children and develop a plan for supervision.
