Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observations and measurements that blots with more than two threads were present on the fencing for playground A, B and C. It was further determined that on playground A, a gap at the bottom of the gate between playground A and B measured at six inches. A gap between the back building and the fencing measured four inches, on playground C. A gap at the bottom of the wooden fence at the back left of playground B measured at six inches.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Finding

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. On playground B exposed concrete with sharp edges was present at the base of the blue ball hoops.
