Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the bottom of the fence throughout the playground was observed to have spokes that were sticking out creating a hazard where a child could be injured on Playground B.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use. The director stated that they will place mulch around the areas of the fence that are exposed.

Correction Deadline: 5/15/2026

Finding

591-1-1-.26(8) requires climbing and swinging equipment to have a resilient surface beneath the equipment and the fall zone from such equipment must be adequately maintained by the Center to assure continuing resiliency. It was determined based on observation that the following hazards were observed on Playground B:

- The blue slide, measured at approximately 5 inches of mulch on the sides where six inches were needed.
- The green, teal and blue circular monkey bars: measured at approximately 3 inches where six inches were needed.
- The blue rope climbing wall: measured at 5 inches where six inches were needed.
- The peach, grey and green climber: measured at 4 and a half inches where six inches were needed.

POI (Plan of Improvement)

The Center will add additional resilient surfacing to the fall zones where needed and check daily, adding resilient surfacing as needed to maintain adequate resiliency.

Correction Deadline: 5/16/2026

Technical Assistance

591-1-1-.26(9) - Please ensure that the mulch pieces are no more than 3 and a half inches in length throughout Playground B and also ensure that there are no exposed concrete on PG.
