Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Finding Associated with Complaint

591-1-1-.03(8) requires a center to provide individual attention to each child by responding promptly to the child's distress signals and need for comfort. It was determined based on investigative findings that on August 9, 2023, center staff failed to provide individual attention to a one-year-old child, who remained lying on the floor for approximately ten minutes after falling from a chair. Staff were observed to step over the child and walk past them as the child remained motionless on the floor. The child sustained an injury to their head which required professional medical attention.

Staffing and Supervision

Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined, based on investigative findings, that on Wednesday August 9, 2023, staff was observed to not provide adequate supervisions when they did not respond to the needs and actions of the children in care. One staff member and seven children were present when children were observed to move furniture around the room, climb on chairs, and climb on top of the table. The staff member was observed to have their back to the children for several minutes and did not acknowledge the actions of the children when they were observed to walk past the children and look in their direction. as a result a one-year-old child climbed on to a chair and stood on the chair for several minutes until they fall and laid motionless on the floor for several more minutes. The child sustained a head injury which required medical attention as a result of the incident.
