Advisement of Potential for Repeated Rule Violations during Pending Investigations

This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

591-1-1-.07 Children's Health

Not Met

Finding Associated with Complaint

591-1-1-.07(2) requires that Parents be immediately notified and specific instructions obtained until the child can be picked up or returned to the group, immediately when professional medical attention is required, or when the child experiences symptoms of moderate discomfort, or when the child is involved in an incident that puts their health and/or safety at risk and to notify Parents by the end of the day when professional medical attention is not required, when the child experiences symptoms of less than moderate discomfort or when the child experiences an adverse reaction to prescribed medication which does not constitute moderate discomfort. It was determined based on an investigation that on July 21, 2026, Center staff failed to notify the parents of a 2-year-old child after becoming aware that the child had been required to sit on a toilet for approximately 20 minutes and was isolated to the restroom for approximately 45 minutes following a toileting accident while in the 3L-Room 5-E Two's Classroom.

Not Met

Finding Associated with Complaint

591-1-1-.37(d) requires the Center and Staff to cooperate with any inspection or investigation by responding truthfully to any legitimate departmental inquiry. Failure to cooperate with a Department inspection or investigation shall constitute good cause for the denial, restriction, revocation or suspension of a License, Permit or commission. It was determined based on an investigation that on August 17, 2026, the Center failed to cooperate with the Department. During staff interviews conducted on August 7, 2026, the Department requested written statements from staff members. However, the requested statements were not provided to the Department despite multiple requests. Additionally, the Center failed to provide the former staff members' termination and/or separation documentation related to the reported incidents.

Not Met

591-1-1-.11(2) requires that Personnel not: physically or sexually abuse a child or engage or permit others to engage in sexually overt conduct in the presence of any child enrolled in the Center; inflict corporal/physical punishment upon a child; shake, jerk, pinch or handle a child roughly; verbally abuse or humiliate a child which includes, but is not limited to, the use of threats, profanity or belittling remarks about a child or his family; isolate a child in a dark room, closet or unsupervised area; use mechanical or physical restraints or devices to discipline children; use medication to discipline or control children's behavior without written medical authorization issued by a licensed professional and given with the parent's written consent; restrict unreasonably a child from going to the bathroom; punish toileting accidents; force-feed a child or withhold feeding a child regularly scheduled meals and/or snacks; force or withhold naps; allow children to discipline or humiliate other children; or confine a child for disciplinary purposes to a swing, highchair, infant carrier, walker or jump seat. It was determined based on an investigation that on July 20, 2026, during circle time at approximately 2:53 p.m., the Center staff failed to refrain from inappropriate discipline when a 2-year-old child was required to sit on a toilet for approximately 20 minutes following a toileting accident. Center staff turned the light off on the child for approximately five to 10 minutes, and the child was isolated in the restroom for approximately 45 minutes in total while in the 3L-Room 5-E Two's Classroom. In addition, on July 21, 2026, during nap time from approximately 11 a.m. to 11:30 a.m., another 2-year-old child was inappropriately disciplined by Center staff when the child was restrained by their right leg to a cot with packing tape while in the same classroom. Neither child sustained injuries, and professional medical attention was not obtained.
