Staffing and Supervision

591-1-1-.32 Supervision(CR)**Not Met****Finding Associated with Complaint**

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on investigative findings that a one-year-old child sustained a busted lip and a bloody nose while attending the childcare center. Review of video footage revealed that the staff member in the infant classroom was cleaning and moving the high chair and provide watchful oversight as they moved the high chair over the one-year-old child hitting them in the face with the foot plate at the bottom of the high chair.

POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.

Correction Deadline: 9/20/2023
