Advisement of Potential for Repeated Rule Violations during Pending Investigations

This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Family Child Care Learning Home, 290-2-3. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Not Met

Finding Associated with Investigation

290-2-3-.14(1) requires the Home to report or cause to be reported to the Department within twenty-four (24) hours or the next work day: any death of a Child while in the care of the Home; any serious illness or injury requiring hospitalization or professional medical attention other than first aid of a Child while in the care of the Home; any situation when a Child in care becomes missing, such as but not limited to, a Child who is left on a vehicle, a Child who leaves the Home, playground, or property, or a Child who is left behind on any trip; any fire; any structural disaster; any emergency situation that requires temporarily relocating children; and any time the Home's operating status changes (i.e., open to closed or temporarily closed and temporarily closed to open). It was determined based on an investigation that the center failed to report to the Department that on September 29, 2025, a 1-year-old child obtained an injury while in care that required medical attention.

Staff:Child Ratios and Supervision

Finding Associated with Investigation

290-2-3-.07(18) requires at least one Staff person with a satisfactory Comprehensive Records Check Determination shall supervise Children at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means Staff members are providing watchful oversight to the children, volunteers and Students-in-Training. The person(s) supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. Plans shall be made to obtain additional Staff help in cases of emergencies. It was determined based on an investigation that on September 29, 2025, active supervision was not maintained when a 1-year-old child sustained facial injuries after falling on a toy. Staff were aware that an infant was actively pulling up on other children, but did not physically intervene to prevent the infant from pulling up on the 1-year-old child, which caused the child to fall. Professional medical attention was obtained for treatment of facial bruising and scratches.
