The following information is associated with a Incident Investigation Closure:

Activities and Equipment

591-1-1-.03 Activities

Not Met

Finding Associated with Complaint

591-1-1-.03(9) requires center staff to refrain from engaging in, or allowing children or other adults to engage in, activities that could be detrimental to a child's health or well-being, such as but not limited to, horse play, rough play, wrestling, and picking up a child in a manner that could cause injury. It was determined based on investigative findings which included staff interviews and statements that the allegation that on January 17, 2024, at 1:08 p.m. a three-year-old child climbed onto a manipulative table, and the staff member intervened by grabbing the child under the arm, which caused the child to be scratched was substantiated. Staff stated that the staff member picked the child up under the arms to remove them from a table and unintentionally scratched the child in the process.

POI (Plan of Improvement)

The Center will review requirements with Staff to ensure that appropriate activities are conducted with children.
