Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

Food Service

Finding Associated with Complaint

591-1-1-.15(2) requires that a signed written feeding plan for children less than one (1) year of age shall be obtained from Parent(s) and that instructions from the Parent(s) shall be updated regularly as new foods are added or other dietary changes are made. The feeding plan shall be posted in the child's assigned room and must include the child's feeding schedule, the amount of formula or breast milk to be given, instructions for the introduction of solid foods, the amount of food to be given and notation of any type(s) of commercially premixed formula which may not be used in an emergency because of food allergies. It was determined based on an investigation conducted that the allegation of on June 15, 2023 the center failed to follow a seven-month-old child's feeding plan when it was stated that staff members did not feed the child every two hours as outlined on the feeding plan and that the child was given only one out of the five bottles that were provided for the child is substantiated. Staff statements and information gathered from the parent communication app revealed that the seven-month-old was fed one bottle at 10:40 a.m. which would make the next feeding at 12:40 p.m. Based on the infant feeding plan provided, a solid was to be fed to the seven-month-old between 1 and 2 p.m. However, after reviewing the evidence, the midday bottle was missed and the solid food was fed to the seven-month-old at 2:22 p.m.

POI (Plan of Improvement)

The Center Director will develop and implement a plan to obtain and post the completed feeding plan as part of the enrollment process and to have parents update the plans on a regular basis that will include center staff involved with enrollment and those working in the infant classrooms.
