Plan of Improvement: Developed This Date 08/24/2023

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.state.ga.us/CCS/Regulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. Please see GBI's website located at <http://gbi.georgia.gov> to access the Georgia Sex Offender Registry.

Refutation Process:

You have the right to refute any of the citations noted in this report with which you disagree. To refute a citation(s), do the following:

- 1) Log into DECAL KOALA www.decalkoala.com with the user id for your program
- 2) On the home page scroll down to the Inspection Reports and select 'Refute Citation' for the visit report in dispute
- 3) Select the specific rule number(s) that you are refuting, add the reason for disagreement regarding the rule citation, and upload supporting documentation
- 4) Submit the refutation in DECAL KOALA to Child Care Services (CCS) within 10 business days of the completion date.

Your refutation will be forwarded to the appropriate CCS manager, who will follow up with you about your concerns. If you have any questions about this process, contact our office at 404-657-5562.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

Important Quality Rated/CAPS Update:

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Contact the Quality Rated help desk at 855-800-7747 or qualityrated@dec.state.ga.us for more information. Free technical assistance is available!

591-1-1-.26 Playgrounds(CR)**Not Met****Correction Deadline: 3/2/2023****Corrected on 8/24/2023**

The correction was observed. The Consultant discussed having zip ties on hand and placing around the post and fence to keep entrapment hazards from occurring.

Finding

591-1-1-.26(6) requires that playground equipment provide an opportunity for the children to engage in a variety of experiences and shall be age-appropriate. For example, toddlers shall not be permitted to swing in swings designed for School-age Children. The outdoor equipment shall be free of lead-based paint, sharp corners and shall be regularly maintained in such a way as to be free of rust and splinters that could pose significant safety hazard to the children. All equipment shall be arranged so as not to obstruct supervision of children. It was determined based on observation that there was rust present at the top of the stairs on the left side of the climber on the left of the playground nearest to the shaded area. Further, there was rust present on the springs of the yellow teeter totter on the right side of the playground.

POI (Plan of Improvement)

The Center will provide a variety of age-appropriate equipment that is arranged so as not to obstruct supervision of children. Staff will check the equipment daily to ensure that the equipment is free of hazards, rust and splinters. The rust will be painted as needed.

Correction Deadline: 9/3/2023**Finding**

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observation that these hazards were present on the following playgrounds:

Playground A--active wasp nest under the shaded area in the upper right hand corner, wash outs and areas in the corners where lattice was no longer present around each deck area and a minimum of a six inch gap present, rust present on the silver cover next to the building

Playground B--active ant bed in the back left corner next to the double gates, splintered wood and nails backed out of the borders that surrounded different play areas and contained resilient surface, rust on the silver covers next to the building, active ant bed on the left of the two red structures, exposed concrete and a drop off next to the sidewalk nearest the red structures, exposed concrete at the bottom of the yellow teeter totter, four inch gap at the back right corner of the fence nearest the highway, active ant bed on the far right side of the last border that contained resilient surface

POI (Plan of Improvement)

The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards. The sharp edges will be covered with foam or chipped off so that sharp edges are no longer present. The ant bed will be treated and the center will continue to follow their protocol of marking ant beds with red paint and treating them. Lattice will be replaced to close the gaps; holes will be filled or closed; the silver covers will be painted; the exposed concrete will be covered with resilient surface and monitored to make sure it stays covered or will be covered with outdoor carpet; the wasp nest will be treated; all ant beds will be treated and continue to be monitored.

Sleeping & Resting Equipment

591-1-1-.30 Safe Sleeping and Resting Requirements(CR)**Not Met****Finding**

591-1-1-.30(2)(c) requires that infants shall not sleep in equipment other than safety-approved cribs, such as, but not limited to, a car safety seat, bouncy seat, highchair, or swing. Infants who arrive at the Center asleep or fall asleep in such equipment, on the floor or elsewhere, shall be transferred to a safety-approved crib. It was determined based on observation that one infant was allowed to sleep in a rocking bouncy seat and was not placed in their crib after they fell asleep.

POI (Plan of Improvement)

The Center will only place infants in safe cribs to sleep and will transfer them to a safe crib when the infants are asleep in other equipment.
