This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Professional medical attention was not obtained.

Correction Deadline: 10/23/2025

Finding Associated with Complaint

591-1-1-.36(7)(d)1. requires that the first check be conducted immediately upon unloading the last child at any location including, but not limited to, a field trip destination, arrival at the Center, and the last stop during transportation to home or school. The responsible person on the vehicle shall physically walk through the entire vehicle; visually inspect all seat surfaces, under all seats and in all compartments or recesses in the vehicle's interior; sign the passenger transportation checklist (s), indicating all of the children have exited the vehicle; and give the passenger transportation checklist(s) to the second designated Staff person. It was determined based on an investigation that on September 2, 2025, the center staff failed to conduct the first check of the vehicle immediately after unloading the last child at the facility. As a result of not performing this check, an 8-year-old child was left unattended in the vehicle for approximately 50 minutes. Professional medical attention was not obtained.

Correction Deadline: 10/23/2025

Finding Associated with Complaint

591-1-1-.36(7)(d)2. requires that the second designated Staff person conduct a check of the vehicle immediately upon the completion of the first check of the vehicle. The responsible person shall physically walk through the entire vehicle; visually inspect all seat surfaces, under all seats and in all compartments or recesses in the vehicle's interior; and sign the passenger transportation checklist(s), indicating all of the children have exited the vehicle. There shall be continuous watchful oversight of the vehicle between the first check and second check. It was determined based on an investigation that on September 2, 2025, one staff member transported 10 school-aged children to the child care facility. The vehicle arrived at 2:55 p.m. and stopped at the front entry of the center. A member of management exited the building and used a mobile application to check in the children as they exited the vehicle. Six of six interviews indicated that the 8-year-old child did not exit the vehicle with the other children and was later discovered asleep on the center's vehicle. A review of the transportation checklist revealed that the second check was documented as completed, despite the child remaining in the vehicle for approximately 50 minutes. Professional medical attention was not obtained.
