Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.al.ga.gov/CCS/RulesAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Comment

290-2-3-.19(1)(a)3 - Please ensure crib sheets are fitted to the mattress.

Correction Deadline: 9/1/2026

Finding

290-2-3-.19(2) requires that a Family Child Care Learning Home shall provide a safe sleep environment in accordance with American Academy of Pediatrics (AAP), Consumer Product Safety Commission (CPSC) and American Society for Testing and Materials (ASTM) recommendations as listed in these rules for all infants and one-year-old children when placed for sleep in a safety approved crib or in any other type of equipment approved for infant sleep. Staff shall place an infant to sleep on the infant's back unless the Parent has provided a physician's written statement authorizing another sleep position for that particular infant that includes how the infant shall be placed to sleep and a time frame that the instructions are to be followed. When an infant can easily turn over from back to front and back again, Staff shall continue to put the infant to sleep initially on the infant's back, but allow the infant to roll over into his or her preferred positions and not re-position the infant. Sleepers, sleep sacks and wearable blankets that fit according to the commercial manufacturer's guidelines and will not slide up around the infant's face may be used when necessary for the comfort of the sleeping infant, however swaddling shall not be used unless the Home has been provided a physician's written statement authorizing its use for a particular infant that includes instructions and a time frame for swaddling the infant. Staff shall not place objects or allow objects to be placed in or on the crib with an infant such as but not limited to toys, pillows, quilts, comforters, bumper pads, sheepskins, stuffed toys, or other soft items and shall not attach objects or allow objects to be attached to a crib with a sleeping infant such as but not limited to crib gyms, toys, mirrors and mobiles. It was determined based on an observation a 9-month-old was asleep in a crib while wearing a sleep sack, with a pacifier attached to their clothing. It was also determined a one-year-old was asleep in a crib while wearing a sleep sack; a bottle was inside the crib and a pacifier clip was attached to their clothing.

POI (Plan of Improvement)

The Home Provider will ensure that safe sleep requirements for infants are followed as required.

Correction Deadline: 9/1/2026

Finding

290-2-3-.19(2)(c) requires that infants shall only sleep in a safety approved crib or other equipment approved for infant sleep as described in 290-2-3-.19(1)(a) and shall not sleep in any other equipment, such as, but not limited to, a car safety seat, bouncy seat, highchair, or swing. Infants who arrive at the facility asleep or fall asleep in such equipment or on the floor shall be transferred to a safety approved crib or other equipment approved for infant sleep. It was determined based on observation a one-year-old was asleep in a Day Dreamer Baby Lounger chair for an unknown amount of time.

POI (Plan of Improvement)

The Home Provider will move infants who fall asleep in equipment other than a safety-approved crib such as a car safety seat, highchair or swing, or on the floor, to a safety-approved crib.

Correction Deadline: 9/1/2026

It was determined based on a review of records two out of eight children did not have current immunization records on file.

The Home Provider will ensure that an immunization record/signed affidavit is on file for each enrolled Child.

Comment

The outside area appeared clean and well maintained.

Finding

290-2-3-.13(2)(d) requires that outside play areas be protected from traffic or other hazards by fencing or other barriers at least four feet in height and approved by the Department. Fencing material shall not present a hazard to children. A fence shall be provided around swimming pools to make them inaccessible when not in use. It was determined based on observation the wooden diagonal lattice panel fence on the porch had openings measuring five inches in width and height in between panel gaps. It was also determined the white vinyl PVC picket fence enclosing the play area had gaps measuring five inches wide in between panels imposing an entrapment hazard.

POI (Plan of Improvement)

The Home will enclose the outside play area(s) with a four-foot high fence or other Department-approved barrier and inspect regularly to ensure fencing material is safe and any hazards identified are repaired or replaced. The Home will install or repair a fence around swimming pools that makes them inaccessible to children.
