Finding

591-1-1-.06(4) requires a Center first licensed after March 1, 1991, and Centers that remodel or add to existing plumbing facilities, to have the bathroom area fully enclosed and ventilated to the outside of the building with either an open screened window or functioning exhaust fan and duct system and requires Centers without fully enclosed bathrooms to ensure there is adequate ventilation to control odors and adequate sanitation measures to prevent the spread of contagious diseases. It was determined based on the consultant's observation that the ventilation in both bathrooms were not working and needed repair.

POI (Plan of Improvement)

The Center will fully enclose and ventilate bathroom areas, as required, and will provide adequate ventilation and sanitation in bathrooms that are not fully enclosed.

The overall capacity is 50 based on the number of toilets and sinks..

591-1-1-.25 Physical Plant - Safe Environment(CR)**Technical Assistance****Comment**

Technical Assistance

The provider advised that doors to rooms not approved for child care, other than the kitchen doors, be latched or locked so children cannot wander into those areas. Except in School-age Centers, interior Center door locks shall permit Personnel to open the locked room from outside of the room in an emergency

Correction Deadline: 12/21/2023

591-1-1-.26 Playgrounds(CR)**Not Met****Comment**

Playground does not contain climbing equipment/swings. The program will be utilizing portable equipment, such as hula-hoops, balls, riding cars, bikes, and will have planned activities for the children to participate in.

Finding

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on the consultant's observation that the area in the middle of the playground with the four trees, rocks hidden and roots with branches hanging and entwined vines needed removal or enclosed by a four foot fence. Also the bottom of the ramp was open and had space underneath that caused an entrapment area.

POI (Plan of Improvement)

The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards.

Correction Deadline: 2/21/2024
