Finding

591-1-1-.25(13) requires that potentially hazardous equipment, materials and supplies be stored in a locked area inaccessible to children. It was determined based on consultant observation in the one-year old room a bleach bottle was present on the diapering sink counter and a broom and dust pan accessible to children. In the after school room, cleaning chemicals were present on a shelf in the restroom however the position of the shelf is too low, allowing the chemicals to be accessible to children.

POI (Plan of Improvement)

The Center will identify all hazardous items and keep them in a locked area inaccessible to children. The Center will inform all Staff about hazardous items and the safe storage of those items.
