Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Incident Investigation Closure:

	Safety
591-1-1-.36 Transportation(CR)	Not Met

Finding Associated with Investigation

591-1-1-.36(6) requires written Parental authorization for routine transportation provided by or on behalf of the Center. Written authorization must include the routine pick-up location, routine pick-up time, routine delivery location, routine delivery times and the name of any person authorized to receive the child. It was determined based on an investigation that on August 13, 2023, at approximately 8:15 a.m., center staff did not have parental authorization to transport a four-year-old child when the child was transported and was dropped off at a local elementary school.

Correction Deadline: 2/15/2025

Finding Associated with Investigation

591-1-1-.36(7)(c) requires the center to use passenger transportation checklists, in a format approved by the Department, to account for each child during transportation. A separate passenger checklist must be used for each vehicle. It was determined that on August 13, 2024, center staff failed to complete the passenger transportation checklist, stating they could not locate it before transporting the children to the local elementary school. As a result, a four-year-old child was mistakenly transported to an unauthorized location.

Correction Deadline: 2/15/2025

Staffing and Supervision

Finding Associated with Investigation

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined that on August 13, 2024, at approximately 8:15 a.m., center staff failed to provide watchful oversight when a four-year-old child was dropped off and left unsupervised at an elementary school for approximately 36 minutes. The child was left unattended until the parent was notified by the school and then contacted the child care center. The child was later picked up by center staff and returned to the center.
