Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Incident Investigation Closure:

Activities and Equipment

591-1-1-.03 Activities

Not Met

Finding Associated with Complaint

591-1-1-.03(9) requires center staff to refrain from engaging in, or allowing children or other adults to engage in, activities that could be detrimental to a child's health or well-being, such as but not limited to, horse play, rough play, wrestling, and picking up a child in a manner that could cause injury. It was determined based on investigative findings, which included staff statements and interviews, parent interview, and video footage, this allegation was substantiated. There was enough evidence to support that on June 14, 2023, center staff failed to do a proper transition activity in the one-year-old classroom that cause a one-year-old child to sustain nursemaid's elbow. Staff statement revealed that the child was walking to the changing table and stumbled while still holding the staff's hand. Staff statements further revealed that the child tripped over their own feet. Furthermore, staff statements revealed that on June 14, 2023, the child was observed favoring their right arm after getting off the changing table. The parent indicated that they did receive a call from the center. The parent indicated that the child was taken to the Emergency Room to get the right arm reset and the child ended up with a cast. On June 20, 2023, the consultant reviewed the video footage that which revealed the staff did not let go of the child's right hand when the child stumbled towards the changing table. The video footage further revealed that the staff pulled the child's right arm up before picking the child up to place the child on the changing table. The child did receive professional medical attention for the incident.

POI (Plan of Improvement)

The Center will review requirements with Staff to ensure that appropriate activities are conducted with children.
