Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

### Staffing and Supervision

**591-1-1-.32 Supervision(CR)**

**Not Met**

#### Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on staff statement and center video footage that on December 29, 2022, a one-year-old child was left alone in a hallway outside of a classroom, and when the child attempted to enter the room through a door, they closed their hand inside the door is substantiated. Based on the review of the documentation, it was indicated that staff members did not provide watchful oversight to prevent the incident from occurring. Further review of the video footage revealed that a child was left alone in a hallway outside of a classroom until the child's parent came to pick the child up. There was no report the child sustained injuries, marks or bruises, and there was no report the child received professional medical treatment.

#### POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.

It was determined based on staff statements, interviews, and a review of the center policy that the allegation on January 6, 2023, the staff were observed using their phones and not being attentive to the four-year-old children in care is substantiate. Staff statements revealed that staff have been on their phones in the four-year-old classroom and that the center had to implement a new policy about staff being on their phones.
