Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Incident Investigation Closure:

	Food Service
--	---------------------

591-1-1-.15 Food Service & Nutrition

Not Met

Finding Associated with Complaint

591-1-1-.15(9) requires that a written statement be on file from a medical authority when a child requires a modified diet for medical reasons and from the child's Parent(s) when a child requires a modified diet for religious reasons. All caregiver Personnel shall be informed of the diet restriction for the child and only food that complies with the prescribed dietary regimen but still meets the food and nutrition requirements shall be served to the child. It was determined based on an investigation and through a review of records, that on June 10, 2022, the center served a four-year-old child with a known allergy to tree nuts a food product containing tree nut oil. Additionally, the center failed to ensure that a written statement was on file from a medical authority for a four-year-old child that required a modified diet for medical reasons. Staff interviews and a review of records confirmed that the center obtained medical authority after the four-year-old child sustained hives and vomiting after ingesting food containing ingredients associated with the child's diet restrictions. Professional medical attention was obtained.
