Finding

591-1-1-.06(4) requires a Center first licensed after March 1, 1991, and Centers that remodel or add to existing plumbing facilities, to have the bathroom area fully enclosed and ventilated to the outside of the building with either an open screened window or functioning exhaust fan and duct system and requires Centers without fully enclosed bathrooms to ensure there is adequate ventilation to control odors and adequate sanitation measures to prevent the spread of contagious diseases. It was determined based on the consultant's observation, the ventilation in the bathrooms throughout the building did not have working ventilation. The center will ensure that all bathrooms have working ventilation.

POI (Plan of Improvement)

The Center will have maintenance inspect and repair or replace the ventilation in the bathrooms throughout the center. The center will have proper ventilation installed in the bathroom connected to the Two's and the Toddler B classrooms.
